RIVERSIDE PUBLIC LIBRARY.

CATALOGUE SUPPLEMENT.

1883.

The Trustees take pleasure in announcing that they have just placed some two hundred and fifty additional volumes upon the shelves of the Library, making the total number of books fully one thousand.

It will be noticed that the percentage of solid reading is larger than in previous purchases; a proportion which would have been larger still had there been funds to allow of the purchase of high cost books.

It is desired that a copy of this supplement be placed in the hands of every citizen of Riverside and vicinity, in the hope that it may induce many who are not members of the Library Association to become so. For the sake of popularizing the institution it has been thought best to reduce the price of membership to two dollars, and also to allow each member to draw two books instead of one at a time as formerly. Any wishing to join can apply to the Librarian, Mr. J. W. Hamilton.

We would remind members who have allowed their dues to remain unpaid that no institution of this kind can prosper without money, and urge them to aid the Trustees by a prompt attention to the matter.

The thanks of the Association are due Mr. George Leach, through whose efforts the New Church Association were led to present us with 21 volumes of the works of Emanuel Swedenborg; also to Mr. A. S. White, for 12 volumes treating principally on scientific subjects, and to several others for miscellaneous works.

E. W. HOLMES. for Trustees.
